

Native Green Concentrated Cleaners

One family of cleaners with two methods of dispensing:

1) Mobile Dispensing System (MDS)

The MDS versions of our products offer the convenience of a ready-to use (RTU) solution with the economies of a concentrate. The perfect solution for our customers who prefer not to have centralized dispensing but want safe, compact, and healthy cleaners. No special mixing equipment is needed. MDS products are packaged in two forms; a simple pre-measured drop-in concentrated cartridge for spray cleaners and a 32 oz. MDS Squeeze and Pour bottle with a built-in measuring cup for bucket applications.

MDS cartridges. By concentrating our products to the exact amount needed for a 32 oz. spray bottle and packaging it in a drop-in cartridge, Native Green has provided the ultimate in flexible, sensible cleaning solutions for the mobile cleaning professional. Simply fill your 32 oz. spray bottle with water, pop in a product cartridge, twist on your sprayer and begin to clean.

MDS Squeeze and Pour products offer the same convenience for bucket based cleaning. Simply squeeze the lightweight recyclable Squeeze and Pour plastic bottle until the built-in measuring cup is filled to the mark with concentrated cleaning solution. Then tilt and pour measuring cup contents into mop bucket previously filled with water, and begin to clean. The right mix every time.

2) HiConcentrate

HiConcentrate products are for centralized dispensing programs and feature innovative packaging, chemistry and dispensing systems that provide professionals a low total cost, easy to use, space-saving dispensing solution for their cleaning products. The HiConcentrate product line is the easiest dispensing system available. No need for special operator training, and no confusing dilution selections. No need to snap on special equipment, or required third party installation and maintenance. The system is totally self contained and requires no tubes, hoses, check valves, regulators or proportioning tips to "bolt on" later...it is all built-in to the bottle.

HiConcentrates make a single half-gallon bottle into 64 or 128 gallons of ready to use cleaning solutions. Simply snap the concentrate bottle into the dispenser, press the bucket or bottle button, and fill your container with a perfectly mixed cleaning solution.

Multi-Purpose Cleaner / Degreaser

This powerful spray and wipe degreaser cleaner combines powerful grease cutting agents with a unique vandalism mark remover to eliminate problem soils and permanent ink marks. This premium, residue free spray and wipe cleaner provides a multitude of applications including removing work station soil buildup, inks from table tops, countertops, walls, and everyday grease, grime, oils, and lubricating compounds. USDA C1 Equivalent

Glass Cleaner

A specially formulated glass, plastic and CRT cleaner designed for use on glass, lexan, lucite, mirrors, menu boards, and other surfaces not harmed by water. This fresh blue formula utilizes a special combination of soil suspending detergents, and wetting agents to quickly remove soil smudges, grease and finger prints without streaking. Anti-static to repel airborne dirt. USDA C1 Equivalent

Bathroom, Tile and Grout Cleaner

A mild acid combined with unique grease-releasing agents to brighten grout lines, chrome, fiberglass, and tile surfaces. Removes grease, oils, soils, body oils, soap scum, hard water stains and uric salts from restroom surfaces. Revive your tile surfaces to their original luster. USDA C2 Equivalent

Total Impact Disinfectant Cleaner

Only formula certified to kill CA-MRSA USA-300 & 400 strains

Combines the activity of quaternaries with powerful cleaning agents, buffered to a neutral pH for no-rinse cleaning and disinfection, ARB (Antibiotic Resistant Bacteria)-Provides broad spectrum effectiveness against gram-positive and gram-negative bacteria including VISA, VRE strains and MRSA (Methicillin Resistant Staphylococcus Aureus), viruses (including HBV, HCV and HIV-1, the AIDS virus), and pathogenic fungi (including T. mentagrophytes the athlete's foot fungus) on artificial turf, sports equipment, playground equipment, exercise mats and more! Cleans and disinfects in one step.

Fabric & Air Deodorant

A variety of uses...this refreshing formula eliminates odors leaving behind a fresh pleasant scent and may be utilized on multiple surfaces including upholstery, waste receptacle interiors, toilets, urinals, drains, auto scrubbers, mop buckets, and carpet extractors. This product can be used as a heavy duty counteractant on HVAC ducts, carpets, and draperies.

Food Service Area Sanitizer

A powerful sanitizer for food contact surfaces and food processing equipment which does not require a potable water rinse. Based on a twin chain quaternary compound to provide maximum efficiency. Formulated without color or fragrance, making it acceptable for use in meat and poultry plants. USDA D2 Equivalent

Damp Mop Floor Cleaner

Contemporary formula...a cost saving, highly concentrated floor cleaner specially formulated for cleaning today's high gloss floor finishes. This formula's low foaming, no rinse characteristics enables it to be utilized with floor machines and automatic scrubbers in addition to mop and bucket applications.

Heavy Duty Degreaser Cleaner

Maximum cleaning power...a highly concentrated industrial cleaner degreaser... specially formulated for heavy duty cleaning requirements. Performs a variety of difficult cleaning tasks where standard liquid detergents and powdered cleaners might fail. Effective for a variety of surface and soil combinations...may be utilized in dip tanks for degreasing and corrosion protection, pressure / washers, steam cleaners, and automatic scrubbers.
